The Syrian priest will celebrate mass

this morning in St. John the Baptist Church and also on Sunday morning.

The ritual and ceremonies of the mass

Enright's eyes had a wild stare and with trembling hands and in spite of the efforts of employes to convince him that he was not in danger, he selved a piece of tough wrapping cord and tied it to steam radiator. Then he sprang out of an open window.

The cord broke, letting Mr. Enright fall into the alley below. He was so badly frightened that he tried to run after his leg was broken. Policeman McClinn and a crowd arrived quickly and the officer was obliged to hold the man until an ambulance arrived in re-

The Waverly Pool tract is surrounded by wells producing from fifty to seventy-five barrels per day.
